Superintendent's Message

Dear Rye Neck Families,

The Rye Neck operating budget for the 2022-23 school year continues our practice of proposing budgets to our community that do not exceed the New York State tax levy cap.

Our guiding principles for creating the annual budget are straightforward. Schools are "people" organizations that don't manufacture or sell products: they match well-qualified, trained, and supported staff with students to provide maximum opportunity. By focusing on efficient structure and investment in staff we can provide an environment that gives each student everything they need to succeed. Additionally, we want our taxpayers to be confident that our budget is a sustainable plan that provides value and enriches the district community. This simple guidance helps us remain focused on what's important while navigating the complexities and competing realities of the process.

Some of the specific goals of this year's budget include a commitment to favorable class size; making smart use of our shared buildings, schedules, and staff; and the preservation of those elements of education that enhance our students' days, such as the arts, athletics, clubs, and enrichment activities. Lessons from the pandemic reinforced the value of technology, leading to an investment in both our infrastructure and our eye on the future through a new Director of Technology position.

Another positive byproduct of the last few years has been a fresh perspective on the value of outdoor space. While our High School Collaborative Science Center and Middle School Gymnasium have been completed and used by our students, we are turning our attention to improving external instructional and activity areas.

By making use of an increase in state aid and pandemic-related federal funds, we will be able to integrate feedback from community surveys into our plan. That feedback included the desire for additional mental health and emotional support for students, academic support for all students, summer programs, and staff development.

I am confident that this budget allows us to fulfill our responsibilities to both our students and our residents by upholding the reputation for excellence and personalized education that characterizes our Rye Neck Community.

Please remember to vote on Tuesday, May 17 from 7 a.m. to 9 p.m. at the Rye Neck Middle/High School Community Room.

Sincerely,

Dr. Eric Lutinski, Superintendent of Schools

Capital Reserve Fund

Reserve Funds

» Reserve funds provide a mechanism for:

- » Saving for future projects, acquisitions and other allowable purposes which is an important planning consideration for school districts.
- » Provide a degree of financial stability by utilizing reserves as a budgetary option to help mitigate the need to cut services or to raise taxes.
- » Saving money to finance all or part of future infrastructure, equipment or other requirements.
- » Reducing reliance on indebtedness to finance capital projects.

Capital Reserve Fund

A Capital Reserve Fund can be used to pay the cost of any object or purpose for which bonds may be issued.

- » Capital Reserve Funds allow schools to **save for major expenses**, both planned and unplanned.
- » Establishing a capital reserve fund now allows the district to **plan for the long-term needs** of the district.

The reserve is intended to reduce the impact of capital projects on District residents.

- » Money would only be added to the capital reserve fund if there is excess money left at the end of the fiscal year. If there is no excess, then no money is added to the capital reserve fund.
- » **The budget does not include an allocation for this reserve fund.** The fund only accrues a balance if there is an excess of money at the end of the fiscal year.

Capital Reserve Fund – Establishment Process

- » The creation of a capital reserve fund is **subject to voter approval**.
- » The capital reserve fund proposition includes the maximum amount that can be transferred into the reserve, the purpose of the reserve, and the probable duration of the reserve.
- » Voter approval is also required to spend funds from the reserve.
- » In order to create a capital reserve fund, there will be a **proposition** for voter approval on the May 17, 2022 ballot.

Capital Reserve Fund Proposition

- » <u>Maximum Amount</u>: \$ 6,000,000
- » <u>Duration</u>:

10 years

» <u>Purpose</u>: To finance site work, construction, reconstruction and equipping of school buildings and facilities, as well as to defray the cost of the construction and reconstruction of School District buildings and facilities, including original equipment, machinery, apparatus, appurtenances, furnishings and other incidental improvements and expenses in connection therewith, and to defray the cost of, in whole or in part, and in order to accomplish the same; such capital costs being of a type that would be eligible for financing under the local finance law.

Capital Reserve Fund – why now?

- Rye Neck's current reserve funds are well funded, so the district is in a position to be able to create a new reserve.
- Rye Neck had two instances of projects this school year that could have been paid with funds from a capital reserve fund.
- Rye Neck's buildings will have future infrastructure needs.
- The district has its Building Condition Survey (BCS), which is required by New York State, scheduled for this summer.
- The BCS will identify immediate and future project needs.

Tax Cap Levy & Budget History

The Tax Levy Cap

How can the tax cap be 2.00% and the proposed levy increase be 1.84% and still be at the cap?

Exemptions, and the movement in exemptions, year over year: Debt service (principal and interest on the district's bonds) less building aid and use of the debt service reserve cause the levy increase to be above or below 2.00% and still be tax cap compliant.

Historical Levy Caps

History of Levy and Budget Changes

The **tax levy** is the total amount of property taxes raised (or "levied") annually by the district. The budget takes into account other revenues, such as state aid.

Ten Year Staffing Analysis

Budgetary Definitions

<u>Administrative Budget Component</u>: One of three categories that school districts must show in the proposed budget (other categories are the Capital Budget Component and the Program Budget Component). These expenditures include:

- Office and administrative costs
- Salaries and benefits for certified school administrators who spend 50 percent or more of their time performing supervisory duties
- Data processing
- Supplies
- Legal fees
- Property insurance
- School board expenses

Adopted Budget:

The budget proposal adopted by the Board of Education and presented to the voters at the Annual Meeting and Budget Vote.

Appropriated Fund Balance:

The portion of a district's fund balance from the previous fiscal year that is applied as revenue to the District's following year's budget. This reduces the amount of revenue that must be raised by property taxes.

Approved Budget:

A budget approved by voters at the Annual Budget Vote. If voters do not approve the Board's adopted budget, the District may try one more time to win approval of the same budget or a revised budget. After two defeated proposals, the Board must adopt a contingency budget.

Assessed Value:

The value of a residential or commercial property as determined by the local property assessor. This value can change based on the municipality's equalization rate, the market, or in the event of a municipal revaluation. The assessment is used to determine the amount of taxes paid and the eligible amount of STAR exemption.

Assessment Roll:

A list of properties and their assessed value in each municipality. This is a public document and can be accessed at the local assessor's office or on online.

Budget:

A plan of financial operation expressing the estimates of proposed expenditures for a fiscal year and the proposed means of financing them.

Budget-to-Budget Change:

The amount the budget increases/decreases from one year to the next. This is commonly expressed as a percentage increase or decrease. The budget to budget change or spending plan change is separate from the projected tax rate change.

Budget Calendar:

The schedule of key dates that the school district, Board of Education and administrators follow in preparation, adoption and administration of the budget.

Capital Budget Component:

One of three categories that school districts must show in their proposed budgets (other categories are the Administrative Budget Component and the Program Budget Component). These expenditures include:

- Custodial and all facility costs including service contracts, supplies, utilities, maintenance, repairs, construction and renovation
- Debt service and lease expenditures
- Legal judgments and settled claims

Consumer Price Index (CPI):

As defined by the Bureau of Labor Statistics, the Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services. It is also called cost-of-living index. The CPI is designed to measure the experience of relevant households and does not factor into account many of the items that cause school district budgets to rise, such as the cost of retirement contributions, group health insurance costs and district property and liability insurance.

Contingent Budget:

Under NYS law, school boards can submit a budget to voters a maximum of two (2) times. If the proposed budget is defeated twice, the board must adopt a contingency budget, which would put a cap on new spending. The contingent budget is limited to a 0% tax levy increase.

Employee Benefits:

Amounts paid by the District on behalf of employees. These amounts are not included in the gross salary. While not paid directly to employees, these benefits are part of the cost of employees. Employee benefits include the District cost for health insurance premiums, life and disability insurance, Medicare, retirement and social security.

Employee Benefits Reserve:

This reserve known as (EBALR) is for expenditures related to contractual obligations for retirees, such as the payment of unused sick and personal days that is due upon separation from employment. Rye Neck does not make these payments to employees, and therefore does not maintain this particular reserve.

Encumbrance Reserve:

This account allows the District to pay for budget items that carry from one fiscal year into the next. It is a reservation of funds set aside for goods or work that have been contracted for but have not yet been received. This payment is held over until the next budget season—literally, a "promise to pay for work that is in progress." Expenses for these items can be paid from the Encumbrance Reserve without affecting the next year's school budget.

Equalization Rate:

Represents the State's judgment of how closely assess values in a town match the "true market value" of the properties. It is a ratio of a municipality's total assessed value to its market value. In the case of school taxes, the equalization rate helps determine how the school tax levy is shared among a district's municipalities. A municipality that has an equalization rate of 100 percent means that municipality is assessing property at full market value.

Equipment:

Consumable materials used in the operation of the school district that are \$5,000 or more.

Expenditure:

Expense. Payment for the purpose of acquiring goods or services.

Fiscal Year:

A fiscal year is the accounting period on which a budget is based. The fiscal year for all NYS school districts is July 1 through June 30.

Full Time Equivalent (FTE):

A unit of measure which is equal to one filled, full time, annual-salaried position.

Fund Balance:

A fund balance is created when the school district has money left over at the end of its fiscal year resulting from less than anticipated expenditures or greater than projected revenues. Part of the fund balance (called appropriated fund balance)

may be applied as revenue to the District's following year budget. A portion, up to 4% of the succeeding year's budget may also be set aside (unappropriated fund balance) to pay for emergencies or other unforeseen expenses.

General Fund:

This is the major operating fund of the District. It receives all income not earmarked for a particular program or activity and not specified by law to be deposited in another fund. The budget voted on by the voters is the spending plan for the district for the year.

Mandates:

Mandated items are required primarily by NYS law or court-ordered decisions.

Maximum Allowable Levy:

Determined by formula, the Tax Levy Limit (commonly known at Tax Cap or 2% Tax Cap) plus allowable exemptions results in the maximum allowable tax levy, which is the highest tax levy a district can propose and still require a simple majority to pass.

Phase-In of State Aid Foundation Aid:

The state aid category Foundation Aid was created in 2007 and takes school district wealth and student need into account to create an equitable distribution of state funding to schools. However, New York State has never fully funded Foundation Aid. New York State has committed to phase-in, or fully fund, Foundation Aid by the FY 2024 budget. In the FY 2022 Enacted State Budget, the Executive and Legislature agreed to fully fund Foundation Aid by the FY 2024 budget and enshrined this commitment into law.

Program Budget Component:

One of three categories that school districts must show in their proposed budgets (other categories are the Administrative Budget Component and the Capital Budget Component).

Program expenditures include:

- Salaries and benefits of teachers and supervisors who spend the majority of their time teaching
- Instructional costs such as supplies, equipment and textbooks

Proposed Budget:

The budget is a spending plan developed by the superintendent of schools with the input of school administrators prior to Board of Education adoption.

Reassessment:

A reassessment or re-valuation is a systematic analysis undertaken by municipalities, of all locally assessed properties (both commercial and residential) to achieve a stated uniform percentage of value. The goal of a reassessment is to assure that each assessment reflects current market prices and that each property owner pays only their fair share of the tax burden.

Reserve Fund Balance:

The portion of fund balance set aside for specific purposes. Each reserve fund has certain establishment and use requirements.

Retirement Reserves:

Reserves set up to specifically offset the increasing employer contributions to the N.Y.S. Employee Retirement System (ERS) and N.Y.S. Teachers Retirement System (TRS).

Revenue:

Sources of income to finance the operation of the school district.

Salaries:

The total amount paid to an individual, before deductions, for services rendered while on the District's payroll.

STAR:

The New York State School Tax Relief (STAR) Program provides exemption for school taxes for owner-occupied, primary residents. Basic STAR is available to homeowners earning less than \$500,000. Enhanced STAR is available to seniors ages 65 and older who meet a certain income requirement.

State Aid:

State Aid for public schools comes primarily from the State General Fund wherein the major revenue source is state taxes (e.g. income, and sales). Of the balance of state support for public schools, approximately less than 10% comes from STAR and the balance comes from a Special Revenue Fund account supported by state lottery, video lottery terminal, and commercial gaming receipts (*source: NYS Ed. Dept 2021-22 State Aid Handbook*). Until the State passes its budget, the District does not know exactly how much to expect in State Aid, however school districts are still required to present their budgets to voters on the third Tuesday in May.

Supplies:

Consumable materials used in the operation of the school district including, textbooks, paper, pencils, office supplies, custodial supplies, materials used in maintenance activities and computer supplies.

Support Services:

The personnel, activities and programs that enhance instruction and provide for the general operation of the school district. This includes attendance, guidance and health programs; library personnel and services; special education services provided by speech and language pathologists, physical therapists and occupation therapists; professional development programs, buildings and grounds operations and security.

<u>Tax Base:</u>

The total Assessed Value of local real estate that a school district may tax for yearly operational monies.

<u>Tax Cap:</u> See Tax Levy Limit.

Tax Certiorari:

The legal process by which a property owner can challenge the real estate tax assessment on a residential or commercial property in attempt to reduce the property's assessment and real estate taxes.

Tax Certiorari Reserve:

This reserve is to provide for expenditures that arise when property owners file lawsuits, successfully challenge the assessments of their property and are granted a reduction. In many cases the settlements cover several years and, as such, can lead to large judgments against the District.

Tax Levy:

The total sum to be raised by the school district in the form of property taxes after subtracting all other revenues such as State Aid. The tax levy determines the tax rate for property owners in each of the two towns (Rye Town and Rye City) that make up the Rye Neck School District. Each municipality within the District is assigned a share of the total levy. Equalization rates, set each year by New York State, are applied to take into account different assessment practices.

Tax Levy Limit:

Also known as the Tax Cap. The threshold dictated by an 8-step NYS formula that determines the highest tax levy BEFORE exemptions that a school district can propose and still need a simple majority (50% plus 1 voter approval) to pass (Also see Maximum Allowable Levy). This may be greater or less than 2%. Under the tax cap law, a super majority (approval by at least 60% of those who voted in the election) would be required if the tax levy exceeds the Maximum Allowable Limit.

Tax Rate:

The actual amount per thousand that is multiplied by an individual's property assessment to determine the amount each taxpayer will pay.

Three-part Budget:

School districts must, by NYS law, divide their budgets into three components: Administrative, Capital and Program. Districts must also show how much each portion has increased in relation to the whole budget (Also see Administrative Budget Component, Capital Budget Component and Program Budget Component).

Unreserved Fund Balance:

Unreserved fund balance consists of appropriated (designated) fund balance and unappropriated (undesignated) fund balance. Appropriated fund balance is the portion of unreserved fund balance that has been used to reduce taxes in the subsequent fiscal year. Unappropriated fund balance is limited by Real Property Tax Law Section 1318 to an amount not to exceed four percent of the succeeding year's budget. This money may be used to pay for emergency repairs and other unforeseen occurrences.

*If the proposed budget is not approved by the required margin, the District may resubmit the original budget or submit a revised budget to the voters on the third Tuesday in June (or an alternate date set by New York State) or adopt a contingency budget that levies a tax no greater than that of the prior year. If the resubmitted/revised budget proposal is not approved by the required margin, the Board of Education must adopt a budget that requires a tax levy no greater than that of the prior year (0% increase in the tax levy).

Cuts to the proposed budget would be made by the Board of Education pursuant to Section 2023 of Education Law. * Si el presupuesto propuesto no es aprobado por el margen requerido, el Distrito puede volver a presentar el presupuesto original o presentar un presupuesto revisado a los votantes el tercer Martes de Junio (o una fecha alternativa establecida por el Estado de Nueva York) o adoptar un presupuesto de contingencia que grava un impuesto no mayor que el del año anterior. Si la propuesta de presupuesto reenviada / revisada no es aprobada por el margen requerido, la Junta de Educación debe adoptar un presupuesto que requiera un gravamen fiscal no mayor que el del año anterior (aumento del 0% en el gravamen fiscal). La Junta de Educación haría recortes al presupuesto propuesto de conformidad con la Sección 2023 de la Ley de Educación.

RYE NECK UFSD - NEW YORK STATE REPORT CARD [2020 - 21]

The New York State Report Card is an important part of the Board of Regents' effort to create educational equity and raise learning standards for all students. Knowledge gained from the report card on a school's or district's strengths and weaknesses can be used to improve instruction and services to students. The report card provides information to the public on school/district staff, students, and measures of school and district performance as required by the Every Student Succeeds Act (ESSA). Fundamentally, ESSA is about creating a set of interlocking strategies to promote educational equity by providing support to districts and schools as they work to ensure that every student succeeds. New York State is committed to ensuring that all students succeed and thrive in school no matter who they are, where they live, where they go to school, or where they come from.

Due to COVID-19 and changes to New York State testing, accountability, and federal reporting requirements, 2021-22 district and school accountability statuses are the same as those assigned for the 2020-21 school year. For informational purposes, accountability graduation rates and chronic absenteeism data are reported. August 2020, January 2021, and some June 2021 Regents examinations were canceled. For more information, please see the NYSED Waiver Memorandum and NYS Board of Regents Announcement.

2021-22 ACCOUNTABILITY STATUS

Due to COVID-19 and changes to New York State accountability and federal reporting requirements, 2021-22 district and school accountability statuses are the same as those assigned for the 2020-21 school year.

RYE NECK UFSD GRADES 3-8 ELA ASSESSMENT DATA

The grades 3-8 English Language Arts (ELA) and mathematics assessments measure the higher learning standards that were adopted by the State Board of Regents in 2010, which more accurately reflect students' progress toward college and career readiness. Data available on this site are based on those reported by schools and districts to the State as of August 13, 2021 via the Student Information Repository System (SIRS). The New York State School Report Card 3-8 English Language Arts (ELA) and mathematics assessment data will be based on those data reported as of the final school year reporting deadline.

Due to the extraordinary circumstances related to the pandemic, approximately 4 out of 10 enrolled students participated in state assessments in 2020-21. Because only 40% of students' results are available, state assessments **are not representative** of the state's student population and the results **should not be compared** statewide or by statewide subgroup, or with prior year's results and are not reflected below.

District and school level performance data, as well as the number and percentage of students who tested and did not test, are available for 2020-21. **However**, depending on the percentage of students that took the tests in a given school or district, the school and district's results **may not be representative** of that school or district's student population.

RYE NECK UFSD GRADES 3-8 MATHEMATICS ASSESSMENT DATA

The grades 3-8 English Language Arts (ELA) and mathematics assessments measure the higher learning standards that were adopted by the State Board of Regents in 2010, which more accurately reflect students' progress toward college and career readiness. Data available on this site are based on those reported by schools and districts to the State as of August 13, 2021 via the Student Information Repository System (SIRS). The New York State School Report Card 3-8 English Language Arts (ELA) and mathematics assessment data will be based on those data reported as of the final school year reporting deadline.

Due to the extraordinary circumstances related to the pandemic, approximately 4 out of 10 enrolled students participated in state assessments in 2020-21. Because only 40% of students' results are available, state assessments **are not representative** of the state's student population and the results **should not be compared** statewide or by statewide subgroup, or with prior year's results and are not reflected below.

District and school level performance data, as well as the number and percentage of students who tested and did not test, are available for 2020-21. **However**, depending on the percentage of students that took the tests in a given school or district, the school and district's results **may not be representative** of that school or district's student population.

RYE NECK UFSD GRADUATION RATE DATA 4 YEAR OUTCOME AS OF AUGUST 2021

Graduation Rate Data are reported for a 9th grade cohort, as of the 4th year of high school - August. The "Filter this data" function, below, provides the ability to display Graduation Rate Data of high school as of the 4th year - June, the 5th year - June and August, and the 6th year - June and August. For school years prior to 2018-19, 5th year - August and 6th year - August are not available.

Data is reported by educational institutions to the State Education Department throughout the school year and available for verification by districts until the close of the state data warehouse in August. District superintendents certify data is accurate in September. For the most updated information, please contact the school district.

Detailed Spending: How Much is Spent Per Pupil in Selected Program Areas?

Program Area Details in entries O through Z represent subsets of spending in Report View One and Report View Two. Five program areas are broken out. To calculate per pupil expenditures P-12 enrollment is used for pupil services, community schools programs, and BOCES services. Enrollments for the program areas are used for special education, ELL services, and prekindergarten.

Entries O through T represent school level expenditures. For charter schools, data represents per pupil expenditures in each of category in the selected school. For traditional school districts, data under the district column represent the district average of all schools in each of these categories.

Entries U through Z represent central expenditures.
