

RyeNeck Schools

LEARN • ACHIEVE • LEAD

April 25, 2022

Dear Rye Neck Families,

Our food service, Whitsons, is collecting feedback about the food service program at Rye Neck. The Whitsons School Nutrition Services would like to conduct a standard school nutrition survey that is available for the Rye Neck School District during the week of April 25th through April 29th.

- The school nutrition survey gathers responses from students, parents, teachers and faculty.
- Results will be reported individually by school.
- The survey is brief and asks questions related to quality, freshness, variety, and service.
- The survey also asks you to prioritize what you value in a school meal.

Please complete the survey here: [Food Service Survey](#)

All other information about school meals can be found under the “For Families” dropdown menu on our district website or on all four of our school pages by clicking [Food Services](#).

Best regards,

Dr. Eric Lutinski
Superintendent of Schools
