

November 16, 2023

Aramark is happy to announce the launch of School Dish. School Dish is a digital platform and mobile application that promotes a consumer engagement experience by offering district menu-specific information including nutritional breakdown through interactive menus. A PDF version of the monthly menus will still be available for each month on the district site.

If you encounter any issues when looking for or selecting a menu item on School Dish, please reach out to Anne Pantoja who can share menu-specific nutrition information.

Thank you for all of your patience and support!
